We received a COLA for the 2018-2019 (additional \$37,000 approximately) Some additional funding is streaming into Adult Ed to deal with data, most of it to CASAS. Director Stafford reports that most consortium across the state are struggling to establish programs, due to the moving target that the State is presenting. State is changing the Deputy Sector Navigator infrastructure. VP Todd Scott, COS sits on that board. Advanced manufacturing is a focus as well as marketing.
- b. WIOA/AEBG Metrics - This was reviewed yesterday, Thanks to Janie for putting it together

- c. 3-Year Planning and member retreat - Next 3 year plan required at the state, was delayed 1 year. Challenges for our consortium: increase numbers, marketing, We will need to focus on metrics as well as needs in our consortium, to develop target Areas. Doodle poll went out for June, members were asked to fill that out asap

- d. Fiscal agent transition and future process

Kim Freeze was appointed a field representative for our consortium on the Professional Development team. There is an AEBG Human centered design webinar in May. She will represent us to procure resources through AEBG. The team is creating professional development for the consortia. Kim is conducting “empathy interviews” and will be reaching out. The team is looking for 3-4 consortia to volunteer to be part of designing a program around the “human

centered design” approach. Director Stafford is going to send a link to all members, to investigate if we want to volunteer as a consortium.
